

Photo 29: Looking east from top of gully. Increased vigour of heather.

Photo 30: Eastern slope of hill. Excellent matrix of heather, sparse grassland, bare soil and moss.

Photo 31: Eastern slope of hill, looking south. Some spread of bramble and broom.

Photo 32: Eastern slope of hill, looking south-west. Some spread of tree saplings.

Photo 33: East of hill looking west. Tall grassland in area cleared of scrub.

Photo 34: East of hill looking north-west. Some spread of broom and other scrub, felled oak saplings apparently not regrowing.

Photo 35: East of hill looking south east. Spread of bramble across remnant heath, now lost.

Photo 36: As photo 30 from further south. Spread of broom again evident.
